

# Trip Registration

Registering your trip online takes less than a minute via:

[globalaffairs.ucdavis.edu/travel](http://globalaffairs.ucdavis.edu/travel)

(Trips booked through AggieTravel / Connexus are automatically registered)

Registering ensures emergency assistance at no charge to UC Davis-affiliated travelers

Global Affairs wishes you a safe, successful, and enjoyable trip!

## WHY REGISTER?

Whether it is an impromptu political protest or a sudden natural disaster, unexpected and rapidly changing health, safety, and weather conditions affect travel plans all too frequently, placing meticulous planning, research, and financial investment at risk.

In order to mitigate the impact of unforeseen contingencies, trip [registration](#) provides UC Davis travelers with critical, up-to-the-minute travel updates, as well as additional information to ensure a safe and productive trip. Registering international travel is **required** by UC Davis [policy](#) and takes **less than one minute**.

## WHAT ARE THE BENEFITS?

In addition to critical travel updates, trip registration is essential to ensuring timely assistance or evacuation in the event of a crisis. These unique services from iJET, a leading international risk management and private intelligence firm, are provided at no charge to UC Davis-affiliated travelers. **Trips booked via AggieTravel / Connexus are automatically enrolled in iJET services and a separate registration is not required.**

## HOW DO I REGISTER?

For travelers registering a trip for the first time, a “Welcome” email from iJET details the short process of creating an account and profile. Links to vital emergency contact and insurance information from UnitedHealthcare Global are also included. Travelers are advised to keep this information with them for the duration of their trip.

## ANYTHING ELSE?

Please be aware that international travel or shipments may trigger advanced licensing requirements under federal export control laws. It is especially important to be aware of these requirements if you plan to hand-carry or send items to an embargoed country (e.g., Iran, Cuba, Syria, Sudan, or North Korea) given such activities are highly regulated. Thus, we urge you to contact the Office of Research’s Research Compliance and Integrity Office at [orrci@ad3.ucdavis.edu](mailto:orrci@ad3.ucdavis.edu) or (530) 754-0642 well prior to **any** international travel or shipping for a determination on export licensing requirements.

UC Davis faculty, researchers, and staff are also encouraged to contact Occupational Health at (530) 752-6051 to schedule a pre-trip meeting with a physician to discuss country-specific immunization recommendations and to receive a customized travel health report. Immunizations and travel-related health assessments are offered to UC Davis employees traveling on university business at **no charge**.

## QUESTIONS?

Should travelers have questions regarding trip registration, iJET products, or general travel-related health, safety, or security matters, they may contact Marik von Rennenkampff, Travel Security Manager, UC Davis Global Affairs, at (530) 752-9543 or [mvonren@ucdavis.edu](mailto:mvonren@ucdavis.edu), or visit [globalaffairs.ucdavis.edu/travel](http://globalaffairs.ucdavis.edu/travel).
